

## SAM LABS THANKSGIVING ACTIVITY

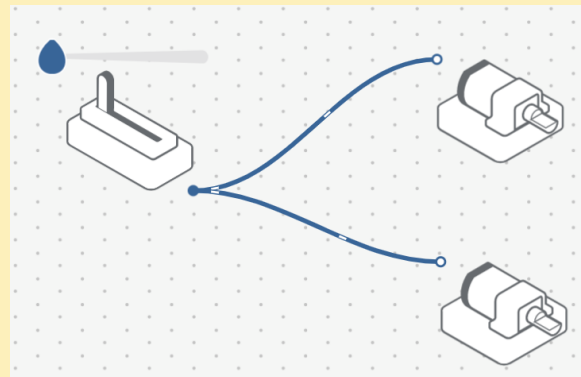

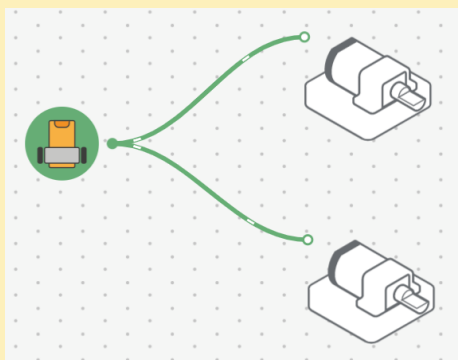

# Thanksgiving Day Parade Float

Recommended Read Aloud: **Balloons over Broadway**  
by Melissa Sweet

Students can assemble the 'remote controlled car' using the materials from their STEAM Kit.

Encourage students to draft a design of their Thanksgiving Day Parade float. Using maker materials, students should begin building a working prototype.

Challenge students to add interactive elements, including light or sound to their float.

Encourage students to test the 2 steering systems above and determine which one they believe is the most effective
